A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/28/07 has been entered.

Pursuant to the response filed 2/28/07, claim 5 has been amended. Claims 1-7 remain pending and are now allowable.

- Application 11/337316 was stricken from the IDS because it is listed in the "U.S. Patent document" section, despite the fact that application 11/337316 is not a U.S. Patent. Although stricken from the IDS, the corresponding PG Pub document was been cited on the accompanying PTO-892.
- The Japanese patent (reference B1) has been stricken from the IDS because of the absence of a translation. Nevertheless, the accompanying PTO-892 cites the corresponding English abstract.
- All of the PCT applications have been stricken from the IDS because none of these has been received.
